Ronald Allan Rivera

I'm a full-stack Web Developer with 20+ years of experience delivering production-ready solutions across eCommerce, SaaS, AI, and marketing technology. I specialize in **Python automation**, backend systems with **Laravel/PHP** and **Python/Django**, scalable **WordPress plugin development**, and modern frontends with **React, Vue, Next.js,** and **Inertia**. My recent work includes building **Python desktop applications** for data automation, developing **Laravel 12 + Filament apps** with advanced admin dashboards, lead capture and user management, pixel tracking, cloaking middleware, deployment pipelines, and reporting, and creating custom **WordPress plugins** for search, eCommerce, and content management. I focus on performance, security, SEO, and maintainability, ensuring every project is scalable, optimized, and future-proof.

Latest Experience

Web Developer
Company Name: LogicMedia BV
Description: An online marketing agency.
Date Joined: June 2015 - Present

- Partner directly with the CEO to lead **end-to-end web development** initiatives, delivering high-performance marketing and interstitial websites that drive engagement and conversions.
- **Develop full-stack tools and applications** using **Python, Django, React.js, and Next.js**, streamlining internal workflows and improving operational efficiency.
- Spearhead **domain, hosting, and CDN configurations** (Cloudflare), optimizing site performance, security, and uptime.
- Write **high-impact marketing content** for landing pages and promotional websites, leveraging **AI-powered prompt engineering** for maximum conversion.
- Produce **training documentation, video tutorials, and marketing content**, including **YouTube video editing and uploads**, supporting cross-department needs.
- Act as a **multi-functional resource**—from developer to virtual assistant—helping the company achieve cost and time savings by consolidating multiple roles into one.

Senior Web Programmer and Web Designer
Company Name: PulseIQ.com
Description: A smart energy management solution for multifamily buildings.
Date Joined: July 2007 - Present

- Lead the **design and development of all partner websites**, building custom **WordPress and Elementor-based solutions** tailored for high-impact marketing campaigns.
- **Develop custom WordPress plugins** and implement fully responsive themes from scratch, converting Photoshop designs into pixel-perfect front-end templates.
- Create **visual branding materials**, including logos, images, and videos, using Adobe Photoshop and Premiere Pro.
- Utilize **AI content generation tools (ChatGPT, Gemini)** to create SEO-friendly web copy, significantly reducing content production time while maintaining quality.
- Build **automation pipelines** using **Zapier and Make.com**, integrating Google Sheets, OpenAI, and WordPress, reducing manual tasks and improving productivity by up to **80%.**
- Execute **SEO strategies** with **Google Tag Manager**, ensuring optimal search visibility and tracking.
- Act as a **trainer and content creator** for online tutorials, educating partner teams on CMS and digital marketing processes.
- Design **Python-based data extraction and automation tools** (Playwright, Selenium, Tkinter), enabling efficient collection of large datasets for marketing analytics.

Past Experience

Web Designer
Company Name: SiteBuilder123.com
Description: A small, experienced team specializing in website development and marketing.
Date Joined: February 2015 - December 2015

- Built WordPress websites tailored to client requirements, focusing on modern, responsive design.
- Designed marketing materials like tarpaulins, brochures, and streamers, helping clients effectively communicate their brand messages.

Lead Banner Designer - Contractual
Company Name: Bowzed.com
Description: Helps companies of all sizes acquire customers affordably and efficiently.
Date Joined: March 2015 - May 2015

- Designed and coded marketing banners using HTML, CSS, and JavaScript, ensuring responsive and engaging designs.

Freelance Graphic Designer
Company Name: Thunderbird Resort La Union Philippines
Description: A Mediterranean-inspired luxury resort in the northern Philippines.
Date Joined: May 2007 - November 2008

- Created graphic designs for promotional materials such as tarpaulins, brochures, and magazines, aligning visuals with the resort's premium branding.

Web Developer and Graphic Artist
Company Name: Danalex Graphic Arts and Call Center, Baguio City, Philippines
Description: A Graphic Arts, Web Design, and Software Development Company originally based in Honolulu, Hawaii, and Las Vegas.
Date Joined: April 2006 - July 2007

- Developed websites using PHP, MySQL, XHTML, and CSS, ensuring functionality and adherence to client requirements.
- Designed and converted website mockups from Photoshop into working front-end interfaces.

Web/Graphic Designer and Customer Representative
Company Name: Web Coast Design Inc., Baguio City, Philippines
Description: A website design and development company serving clients across the United States.
Date Joined: March 2005 - April 2006

- Collaborated with clients to design and develop custom websites that aligned with their business goals.
- Worked closely with senior designers to learn and apply advanced web and graphic design techniques.

High School Math Instructor
Company Name: Agoo Academy
Description: A school in La Union, Philippines.
Date Joined: June 2004 - March 2005

- Taught mathematics subjects, including Geometry, Algebra, Statistics, and Trigonometry, to high school students.
- Served as a general section adviser and part-time computer instructor, teaching basic IT skills.

Final Weigher
Company Name: Union Leaf Tobacco Corporation
Description: A tobacco company based in the Philippines.
Date Joined: March 2003 - June 2004

- Ensured all packed tobacco met exact weight requirements before transferring to the warehouse.
- Provided technical support to production clerks, resolving computer-related issues to maintain operational efficiency.

Education

Bachelor of Science in Computer Engineering
AMA Computer University - Quezon City, Philippines
May 2000 - May 2004

Personal Particulars

Date of Birth: 11 Apr 1982
Gender: Male
Marital Status: Married
Nationality: Filipino
Permanent Residence: Philippines

Latest Projects

FULL STACK DEVELOPMENT

Meet Lessons
Full Stack Django + Python Developer
https://github.com/RonaldAllanRivera/auto-respond/
Built a production-style SaaS platform combining a Python OCR desktop client and Django backend for AI-assisted Q&A from screenshots. Implemented secure multi-tenant architecture, token-based device pairing, Stripe subscriptions with webhook validation, REST APIs, and real-time AI streaming via SSE. Dockerized for production deployment.

Forex Signals Platform (D1/W1/MN1)
Full Stack Laravel Developer
https://github.com/RonaldAllanRivera/forex
Developed a Laravel 12 trading analysis platform with automated candlestick syncing, AI-generated trade signals, TradingView chart rendering, scheduler-driven jobs, admin trade workflows, and daily email reports. Containerized with Docker for production readiness.

AWS E-commerce Microservices
Full Stack Laravel Developer

https://github.com/RonaldAllanRivera/aws_ecommerce
Architected a microservices-based e-commerce system using three Laravel services and a Vue 3 SPA frontend. Implemented asynchronous messaging, Docker containers, and AWS CloudFormation deployment on EC2.

Modular Frontend with Advanced Marketing & Lead Gen Tools
Full Stack Laravel Developer
https://github.com/RonaldAllanRivera/traderai.live
Engineered a modular Laravel platform with multi-template switching, advanced lead generation pipelines, CAPTCHA validation, rate limiting, rule-based cloaking middleware, dynamic pixel injection, and enterprise-grade security controls.

Multi-Source Marketing Data Dashboard (CSV/JSON)
Full Stack Laravel Developer
https://github.com/RonaldAllanRivera/report-system-laravel
Built a performance marketing reporting system that normalizes CSV and JSON exports from multiple platforms into structured dashboards with strict campaign matching and spreadsheet-ready outputs.

Cars Images API
Full Stack Laravel Developer
https://github.com/RonaldAllanRivera/cars-images-api
Developed a Laravel and Filament system integrating with Wikimedia Commons to fetch, validate, and manage high-resolution car images with scalable admin tools and optimized data workflows.

Book Reader
Full Stack AI Systems Developer
https://github.com/RonaldAllanRivera/book-reader
Created a Python automation system using Selenium, OCR, and LLM integration to extract text from browser-based reading platforms and generate AI-assisted quiz answers with structured configuration and logging.

Figma to Elementor Clone
Full Stack Laravel Developer
https://github.com/RonaldAllanRivera/elementor-clone
Built a Laravel platform that converts Figma designs into clean HTML previews and Elementor-compatible JSON exports for WordPress import, with authenticated project management and Docker deployment.

WORDPRESS DEVELOPMENT

Featured Resource Block
WordPress Plugin Developer
https://github.com/RonaldAllanRivera/featured-resource-block
Developed a production-ready WordPress plugin featuring a custom post type, Elementor widget, scheduled JSON syncing, caching, and hardened security with strict sanitization and capability checks.

IRANK Calc & Cards
WordPress Plugin Developer
https://github.com/RonaldAllanRivera/irank-calc-cards
Engineered high-performance Gutenberg blocks including a real-time calculator and swipeable product cards using server-rendered architecture and lightweight vanilla JavaScript.

Used Cars Search
WordPress Plugin Developer
https://github.com/RonaldAllanRivera/used-cars-search
Built a scalable search and comparison plugin with autosuggest, AI-generated SEO metadata, REST endpoints, optimized asset loading, and performance-focused architecture.

Popular AI Software Search
WordPress Plugin Developer
https://github.com/RonaldAllanRivera/software-search
Created a modern AJAX-powered search plugin using vanilla JavaScript and Fetch API with autosuggest, filtering, and admin management tools.

Ozeum Museum
Custom WordPress Theme Developer
https://artworkwebsite.com/
Built a professional custom WordPress theme for museums and cultural institutions using modern best practices. Implemented a custom Exhibitions post type, responsive mobile-first layouts, GSAP-powered animations, one-click demo

import, and a custom admin tools panel. Delivered strong performance optimization (cache busting, conditional loading, no jQuery), SEO enhancements with Yoast integration and auto-populated metadata, and accessibility best practices aligned with WCAG principles.

GaitBeacon.com
WordPress and Elementor Developer
Custom WordPress and WooCommerce site built with Elementor, optimized checkout flow, SEO configuration, performance tuning, and security hardening.

EverythingUsedCars.com
WordPress and Elementor Developer
Developed a responsive WordPress site with advanced search filters, SEO optimization, caching setup, and scalable architecture.

PopularAISoftware.com
WordPress and Elementor Developer
Built an AI tools directory integrating OpenAI, automation workflows, and WordPress customization for a dynamic user experience.

78Dragons.com
WordPress and Elementor Developer
Developed a WooCommerce eCommerce platform with structured product management and optimized purchasing flow.

SmarterSafetySystems.com
WordPress and Elementor Developer
Built a WordPress site for an IoT safety solutions provider with structured content and scalable architecture.

LumbardConsulting.com
WordPress and Elementor Developer
Created a professional WordPress site for a leadership consulting firm with optimized UX and structured service pages.

24Aries.com
WordPress Developer
Developed a WordPress website showcasing advanced technology products with responsive layout and structured presentation.

PulseIQ.com
WordPress and Elementor Developer
Built a WordPress site for energy benchmarking and management solutions with SEO configuration and performance optimization.

AUTOMATION & SOFTWARE ENGINEERING

Cloudflare Multiple Domain Delete (GUI)
Full Stack Python Developer
https://github.com/RonaldAllanRivera/cloudflare-multiple-domain-delete
Built a Tkinter-based desktop tool for safely bulk deleting Cloudflare domains with progress tracking and structured logging.

HTTrack-like Clone
Full Stack Python Developer
https://github.com/RonaldAllanRivera/httrack-clone
Developed a desktop application that mirrors web pages into clean offline folders with asset rewriting, structured output, and preview capabilities.

Interactive Map Scraper
Software Developer
https://github.com/RonaldAllanRivera/mapscraper
Created a Python GUI tool to extract structured data from Mapbox-based interactive maps.

CSV Scraper GUI
Software Developer
https://github.com/RonaldAllanRivera/csv_scraper_gui
Built a Selenium-based desktop scraper designed for heavily protected websites using realistic browser automation techniques.

GRAPHIC DESIGN

https://www.flickr.com/photos/ronald-allan-rivera/
Collection of branding, layout, and digital design projects demonstrating visual communication and creative direction.
